Profile

I would describe myself as a motivated and focused individual who is dedicated to any task I take on. I will work professionally and responsibly, always giving my best effort. I am eager to learn new things, improve my skills, and adapt to new challenges. With commitment and determination, I aim to contribute positively and grow along with the team I work with.

Work Experience

03/2021 – 04/2022
Calbayog City
Philippines

Manual Tester

E-Commerce

- Reviewed requirement documents and user stories to understand business flows (product search, cart, checkout, payment).
- Created detailed **test scenarios and test cases** covering functional, UI, and negative testing.
- Designed test cases for login, product search, shopping cart, order placement, and payment gateway.
- Executed **manual test cases** across multiple browsers (Chrome, Firefox) and devices.
- Reported and tracked defects using **Excel**
- Logged defects with **clear steps to reproduce**, screenshots, and severity/priority.
- Worked with developers to verify bug fixes and performed **re-testing**.
- Conducted regression testing after each build to ensure new changes didn't break existing features.
- Performed exploratory testing to uncover issues not covered by scripted test cases.
- Prepared **test summary reports** highlighting test coverage, executed cases, passed/failed results, and defect status.
- Collaborated with developers and project team in daily stand-ups to discuss progress, blockers, and test results.

Internship Experience

04/2025 – 05/2025
Makati City
Philippines

Technical Support

- Assisted in the development and installation of Boom Barrier System for Automated vehicle access using RFID and IR sensors.
- Contributed to setting up and configuring Starlink Satellite Internet to enhance school connectivity in remote areas.
- Helped Design a Price Verifier System using barcode scanning to verify product prices. Ensuring accurate and efficient to customer services simulation

Education

04/2021 – 05/2025
Calbayog City,
Philippines

Bachelor of Science in Computer Science
Christ The King College Incorporate

Projects

09/2024 – 03/2025

Brainiacz

A Web & Mobile Application for Personalized Learning and Tutoring

- Led the end-to-end development and deployment of an online tutoring platform.
- Designed and executed comprehensive manual testing strategies to ensure a bug-free, user-friendly experience.
- Coordinated tasks and managed collaboration between team members to meet project milestones.
- Documented test cases, reported defects, and verified fixes to maintain software quality.
- Provided feedback for UI/UX improvements to enhance student and tutor interactions.
- Assisted in the integration of core features, such as tutor-student matching, profiles, and ratings.

2023

Student Data

Automated Student Data Management System

- Developed a comprehensive desktop application to digitize and streamline student record management.
- Designed intuitive user interfaces for administrators, students, and faculty access.
- Implemented secure data storage and retrieval systems for academic records.
- Reduced manual paperwork by 80% through digital form processing.
- Created role-based access controls to maintain data privacy and security.
- Enabled real-time grade viewing and academic progress tracking for students.
